

Situation: ISIL are moving munitions into the Khashuri Valley through Armenia and Azerbaijan. It is suspected that they will use this position as a base for establishing a Levant State expansion into Georgia and Turkey. ROZ Taipan has been established by a BLUFOR Coalition force to contain the ISIL threat to the Khashuri Valley.

Enemy Forces: Irregular troops supplied with Russian and Chinese SHORAD and Small Arms. Armored vehicles have been reported crossing the Armenian border. Two SA-2 sites have been confirmed North and South of the main valley highway.

Friendly Forces: British Warrior IFV's conducting a raid on POI-1 along RTE Saber, Callsign RAMBLER 1 and 2

Civilian Presence: Any targets of opportunity should be evaluated for hostile presence, it will be up to individual flights to make real-time decisions on any targets not listed in this briefing. Evacuation efforts have been stifled by irregular force harassment to local security forces. 2/E-11As are conducting PSYOPS in the area to encourage civilians to evacuate or remain indoors if they are unable to evacuate unaided.
